

COMMERCIAL AFFAIRS

Monetary and Commercial:
Financial affairs are quiet and tolerable, though less so than usual at this season of the year. The Government's new Currency Collections come in rather slowly, the mercantile collections are not so brisk as they were, and the stock of Currency the Bankers possess is not so large as it was. The market remains tight. There is little surplus in the Treasury, though one or two banks report a small amount of funds on hand, which they can employ. Other Bankers again have no trouble in finding all the means they desire at 93 1/2 per cent.

Eastern Exchange remains fairly steady, if inactive, at $\frac{1}{2}$ buying, and $\frac{1}{2}$ premium selling. Dealers occasionally drawing for each other the market price.

Gold is firm, in request at $\frac{1}{2}$ and $\frac{1}{2}$ and willing to bid better than six months.

In Time-bills very few transactions are seen and New Orleans Sight Exchange is nearly shut at the rates.

Uncurrent Money has somewhat changed: present rates of Discount being: Indiana State Bank, 10; Illinois and Wisconsin, 12; Illinois, Federal Reserve Bank, 12; and Branches, 12.

July 6, 1909.

The present rates of Exchange and Coin are as
follows:

	Buying.	Selling.
New York Sight.....	30 prem.	31 prem.
Philadelphia.....	30 prem.	31 prem.
Boston.....	30 prem.	31 prem.
Baltimore.....	30 1/2 prem.	31 prem.
New Orleans.....	31 dis.	par.
American Gold.....	31 prem.	40c. prem.

Nothing new in the New York Money market.

Friday's New Orleans *Picayune* remarks:

Nothing has transpired to-day to materialize the condition of the market, and business throughout as at the close of our previous offerings of the day. The market has shown an increase of capital in the form of two limited a company, justifying an increased line of discounts by the out of doors there was very little done, and quotations were firmly maintained for all signatures.

There was very flat, and the movement but little better than yesterday in either case.

domestic, at the subjoined figures: Clear 8 Billa, 100-105; Bank rates, 100-105; Bill Shipping Documents attached, 100-105-100. 100-105, 100 per dollar. Sixty-six Billa of York, 100-105, 100 per cent. discount. Eight per cent. premium, with rate of the Bank holding at 14 per cent. premium.

NEW YORK DRY GOODS MARKET.—Friday York Tribune observes concerning the Dry goods trade:

We notice considerable activity in the Dry Goods market. Our city jobbers are selling a from Philadelphia, the weekly supply, the

between here and New Orleans, A.C., are quietly making the chaves, and the aggregate transactions for the firm, but the general tone of the market has been large. The general tone of the market presents those healthy characteristics which precede a pronounced boom, and all parties are confident of a profitable year ahead. The volume of the jobbing trade increases these homes having South-western connections it has not assumed that magnitude report year at this time. The general assessments are and inviting, although certain styles of season goods are being sold at a sacrifice.

The supply of colored Wool Flannels coats and less, is small, and the production of most leading styles have been contracted for at least

prices for the next six weeks. As very few
planer buyers have purchased, we apprehend
still further advance may be reported with
commodities.

In the leading variety of high-count bleached
the market is kept bare, and while they
command higher prices, they will be taken
as produced.

There is a particular scarcity of 9's and 10's
Fabrics, and the 9's and 10-4 Sheatings are
very high prices.

The orders for heavy China Drills have
some instances countermanded, on account
uncertainty of the solution of the difficult
